CINCINNATI (FOX19) - Give Back Cincinnati is launching a new program, Fuel Cincinnati, at an upcoming event in Northside. Fuel provides a means for young leaders to turn their original ideas into reality. We want to capture and connect great ideas that young professionals have to improve the city that would otherwise go unsupported. We do this by providing direction, technical assistance, volunteers and money to encourage leaders to take action.

Fuel is hosting a kickoff event at 6:00pm at Northside Tavern and will last until 8pm on Thursday, September 16th. Attendees will learn about the types of project we support, how to apply and discuss some of their great ideas for the region. There will be free appetizers and drink specials. In addition, attendees will have the chance to submit their ideas to receive a \$1000 grant. The event is free and open to the public.

Fuel is a program of Give Back Cincinnati, the tri-state region's largest young professional organization that aims to enhance our communities through engaging young volunteers and developing leaders by providing unique community engagement opportunities.

For more information about Fuel Cincinnati, visit our website at www.fuelcincinnati.org
